PROFESSIONAL SUMMARY

Highly motivated and ambitious Computer Science student with a foundation in the software development process, programming languages, and problem-solving. Graduating with a 3.97 GPA and several certifications, I'm equipped with hands-on experience and a strong academic background. I am eager to leverage my technical proficiency, and adaptability in a growth-focused environment. With a passion for learning and a commitment to producing efficient and quality results, I am dedicated to applying my knowledge to create meaningful solutions.

EXPERIENCE

COLDWELL BANKER — Colorado Springs, CO

Real Estate Broker, April 2019 - March 2020

Assisted buyers and renters in finding homes through collaboration and structured work-from-home systems. Navigated clients through complex processes, created economic market evaluations, and provided step-by-step guidance and value-driven information.

- Utilized structured methodologies to guide buyers and renters in finding optimal properties.
- Employed analytical skills to evaluate market trends and provide clients with insightful information.
- Leveraged technology to streamline processes and provide remote support to clients.

TRADER JOE'S — Colorado Springs, CO

Crew Member (Team Lead), March 2016 - April 2019

Provided training and detail-oriented product management. Maintained and ordered stock, unloaded and organized shipments, and empowered co-workers through intentional, positive, and clear communication skills.

- Designed and delivered training sessions to ensure efficient handling of products and inventory.
- Maintained accurate records and consistently monitored stock levels for timely reordering.
- Utilized clear and constructive communication to enhance teamwork.
